Suraasa SURE

Systematic Upskilling with Results & Evidence

A 10-month subscription-based CPD model for your school that delivers:

1

Structured, data-driven faculty development

2

Measurable learning delta in every teacher

3

Strategic insights for school leadership

How We Do It

Baseline CPAT:
1-hour pedagogy assessment

Continuous Asynchronous Learning
40 mins/week on Suraasa Platform

Live Expert-led Sessions
50-min live sessions every 2 months by international professors

Mentoring & Monitoring Tools
Observational tools for school leadership

In-person Workshop
4-hour expert-led hands-on training

Endline CPAT
Proof of growth & ROI

Baseline Assessment

Data-Driven Insights with CPAT

The Comprehensive Pedagogy Assessment of Teachers (CPAT) is an 1-hour online assessment tool to evaluate teachers' pedagogical expertise across 6 key domains.

What It Delivers:

- School-level benchmarking of teacher quality
- Strategic data on faculty-wide competency gaps for school leadership
- Personalized skill reports for individual teachers

Curriculum, Pedagogy & Technology

Ethics & Values

Student Engagement

Teacher Growth & Professional Development

Learning Environment

Learning Assessment & Data
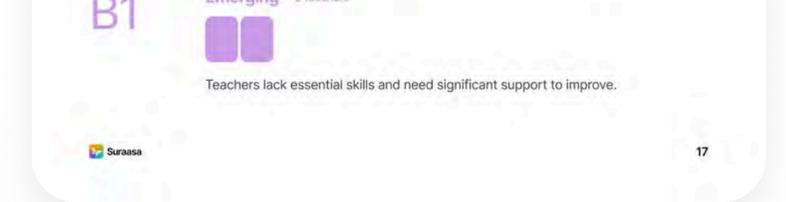

Reports
Included
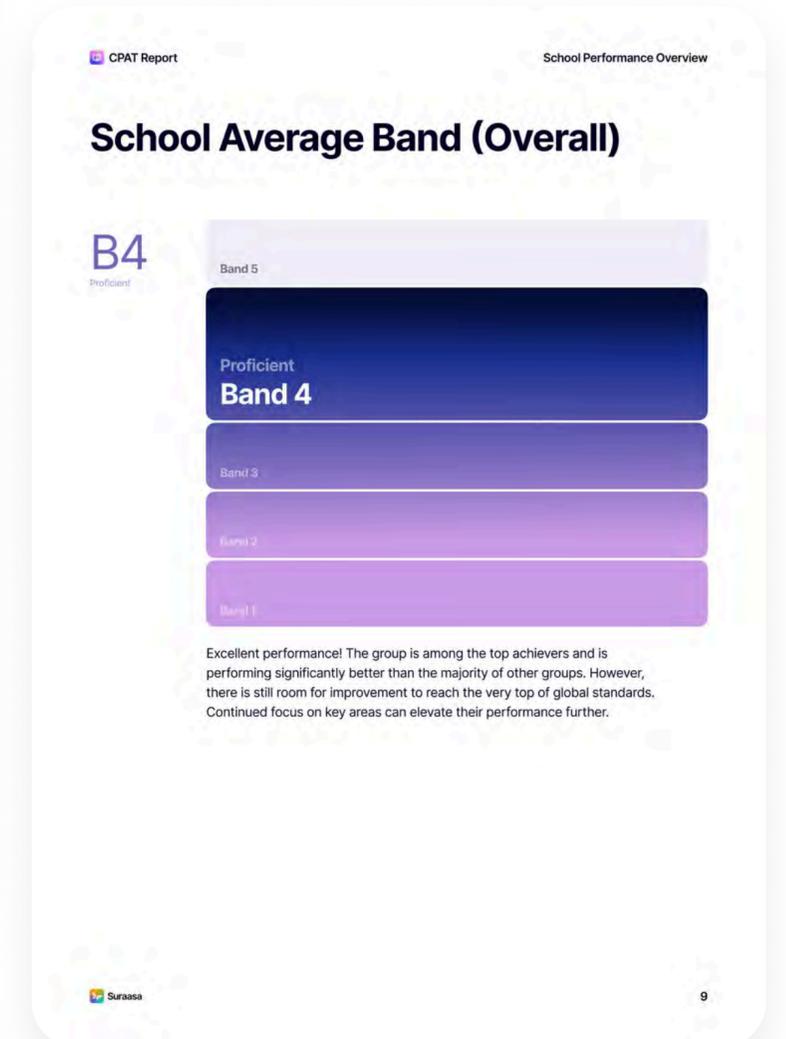

01 School-Level Reports

- School-level Scores (Overall & Domain-wise)
- School-level Sub-domain Performance
- School-level Domain Strengths and Weaknesses
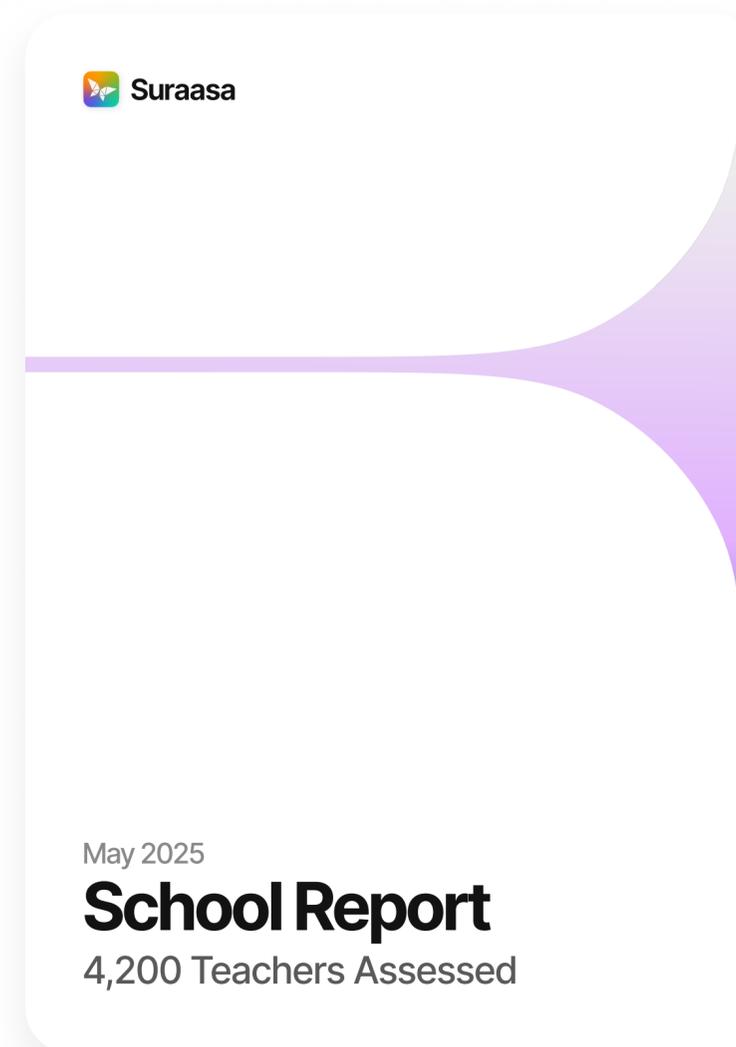

B1

Teachers lack essential skills and need significant support to improve.

CPAT Report

Defining the Six Domains

The assessment measures teachers' knowledge and skills** in the following 6 domains:

Curriculum, Pedagogy and Technology	This domain is comprised of the three components - curriculum (what to teach), pedagogy (how to teach) and technology and their integration to improve teaching and learning. Good teaching requires teachers to be skilled in the integration of subject curriculum with the appropriate pedagogy and technology for achieving desired learning outcomes.
Student Engagement	This domain includes the teaching and learning strategies that can be used to gain students' attention, intrigue them and trigger optimism and interest in them to become active learners. Outstanding teachers create learning experiences that engage diverse learners with varied interests and needs.
Learning Environment	This domain refers to the physical, social, emotional and intellectual opportunities that are provided to the learner to enable impactful and successful learning. Great teachers ensure that they create and sustain a positive learning environment.
Learning Assessment & Data	This domain consists of assessment in its various forms, intended for varied purposes and the assessment data collected as evidence and as a tool to support teaching and learning. Outstanding teachers create quality

CPAT Report   Capacity Building and Teacher Development Pathways

Priority Domains for Intervention

These domains have the highest number of teachers in Bands 1 and 2, indicating immediate and structured developmental needs. Interventions here will yield the most impactful improvements in overall teaching quality.

— Curriculum, Pedagogy and Technology

— Student Engagement

02 Individual-Level Reports
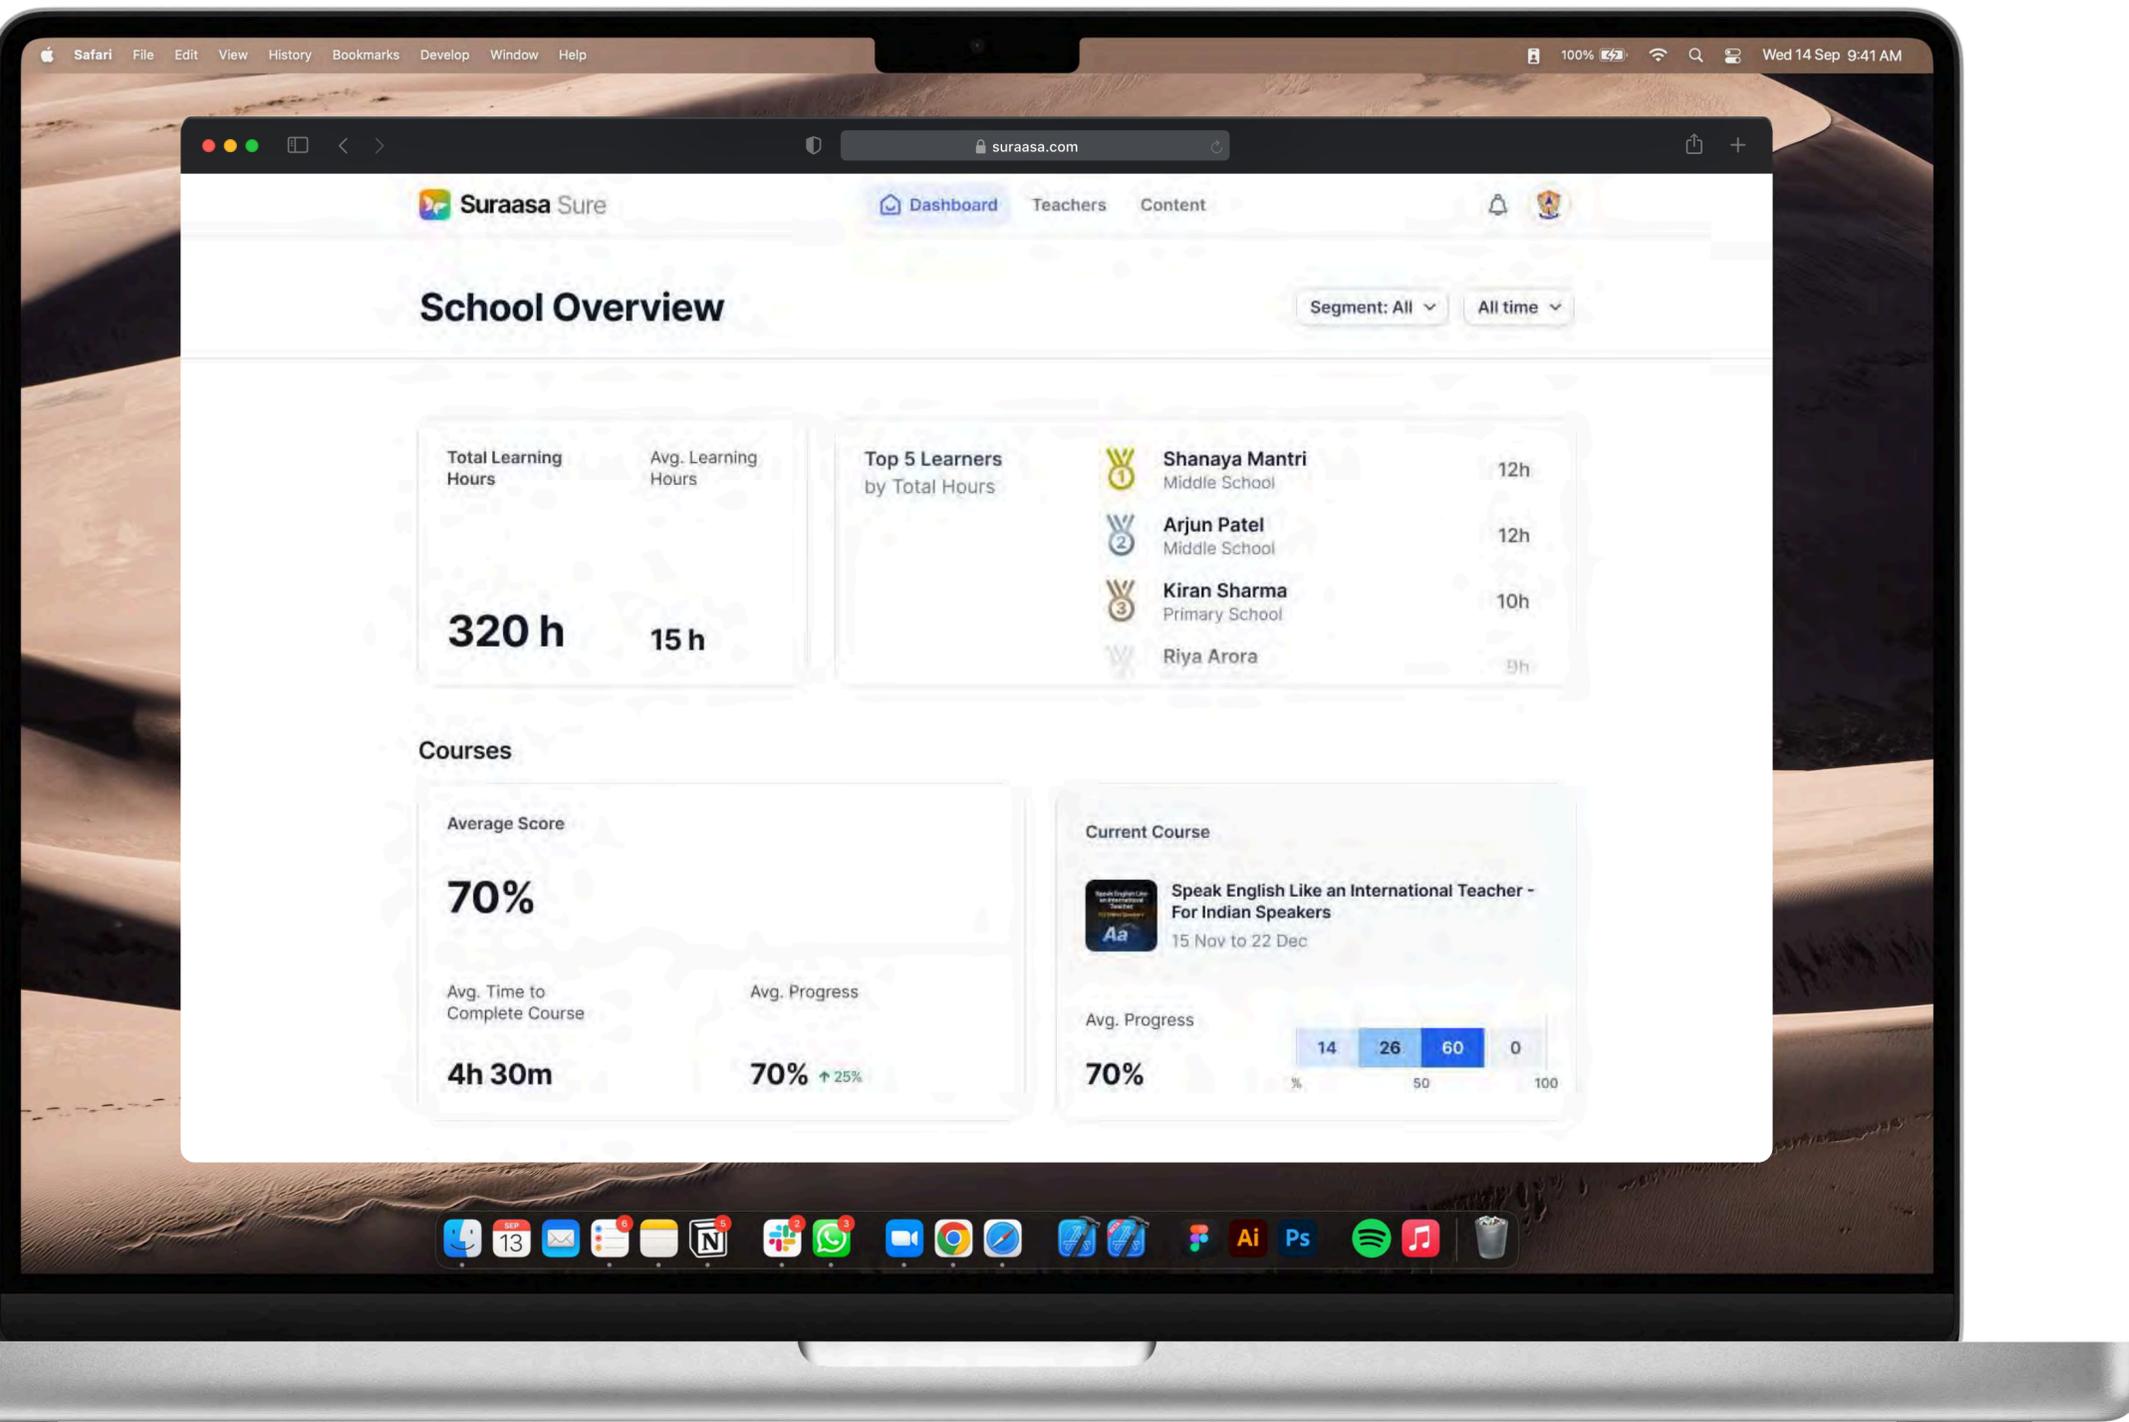

(Available to teachers and school leadership)

- Individual Teacher Scorecard (Overall & Domain-wise)
- Individual Sub-domain Proficiency Report
- Individual Skill Gap Report
- Year-on-Year Comparison (if applicable for repeat test takers)
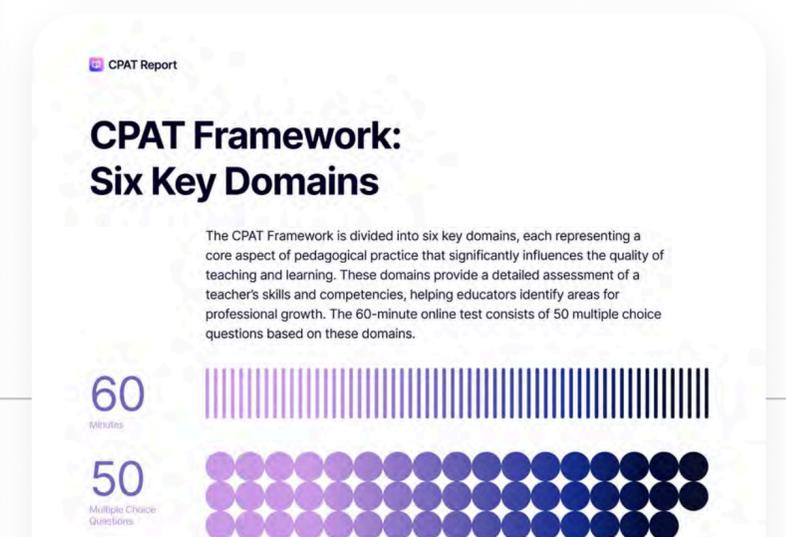

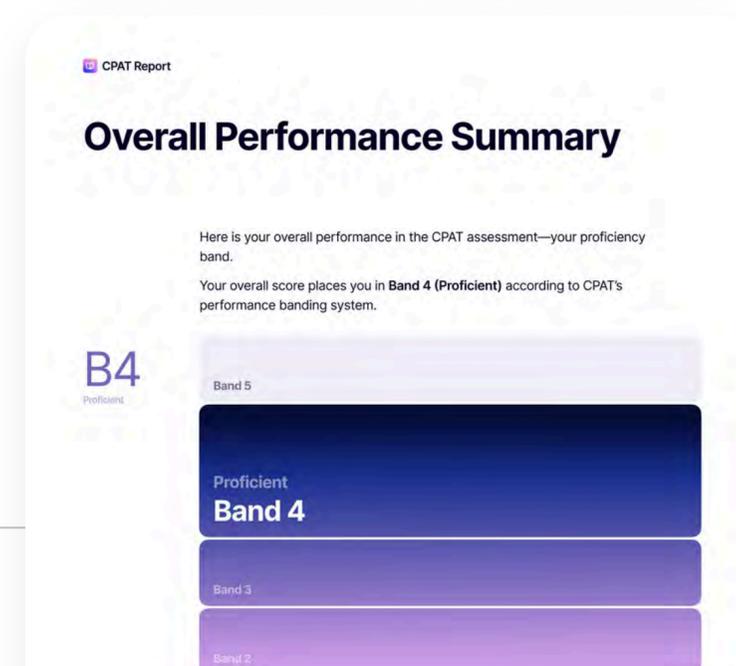

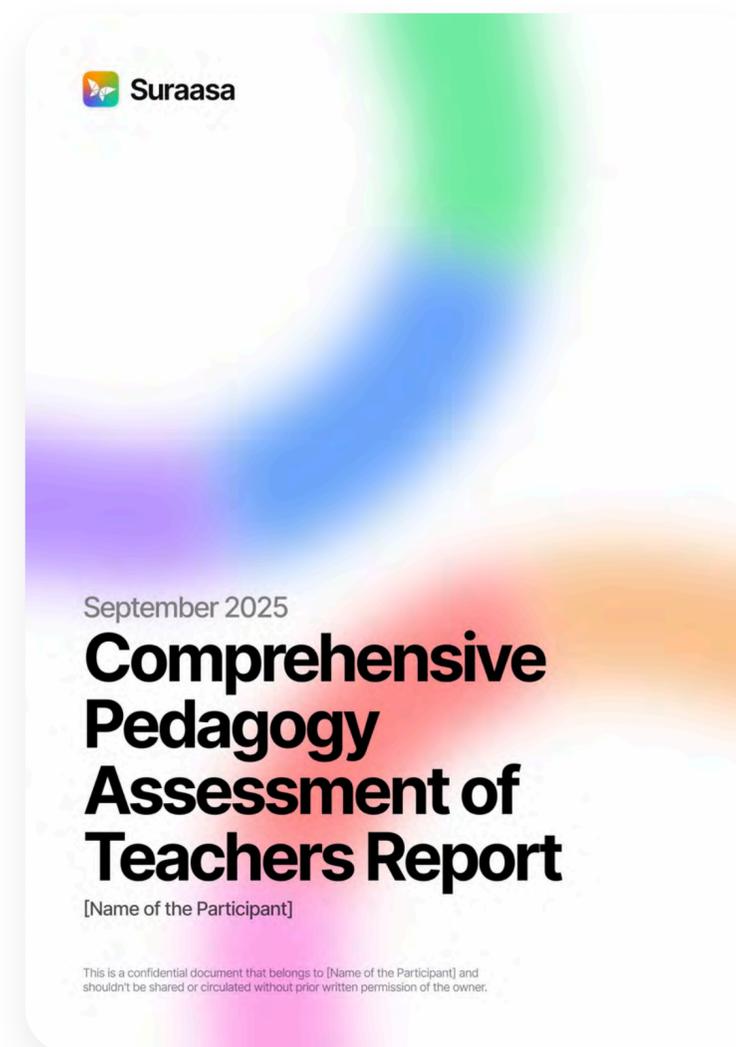

# Growthspaces for Your School and Your Teachers

01 School Growthspace

- Add teachers to your school's growthspace
- Manage and assign learning content
- Track teacher progress and analytics in real time
  - Total and average learning hours
  - Top 5 learners by total hours
  - Completion score
  - Average masterclass attendance
  - School average performance band
  - Domain-wise performance

Suraasa SURE

02 Teacher Growthspace
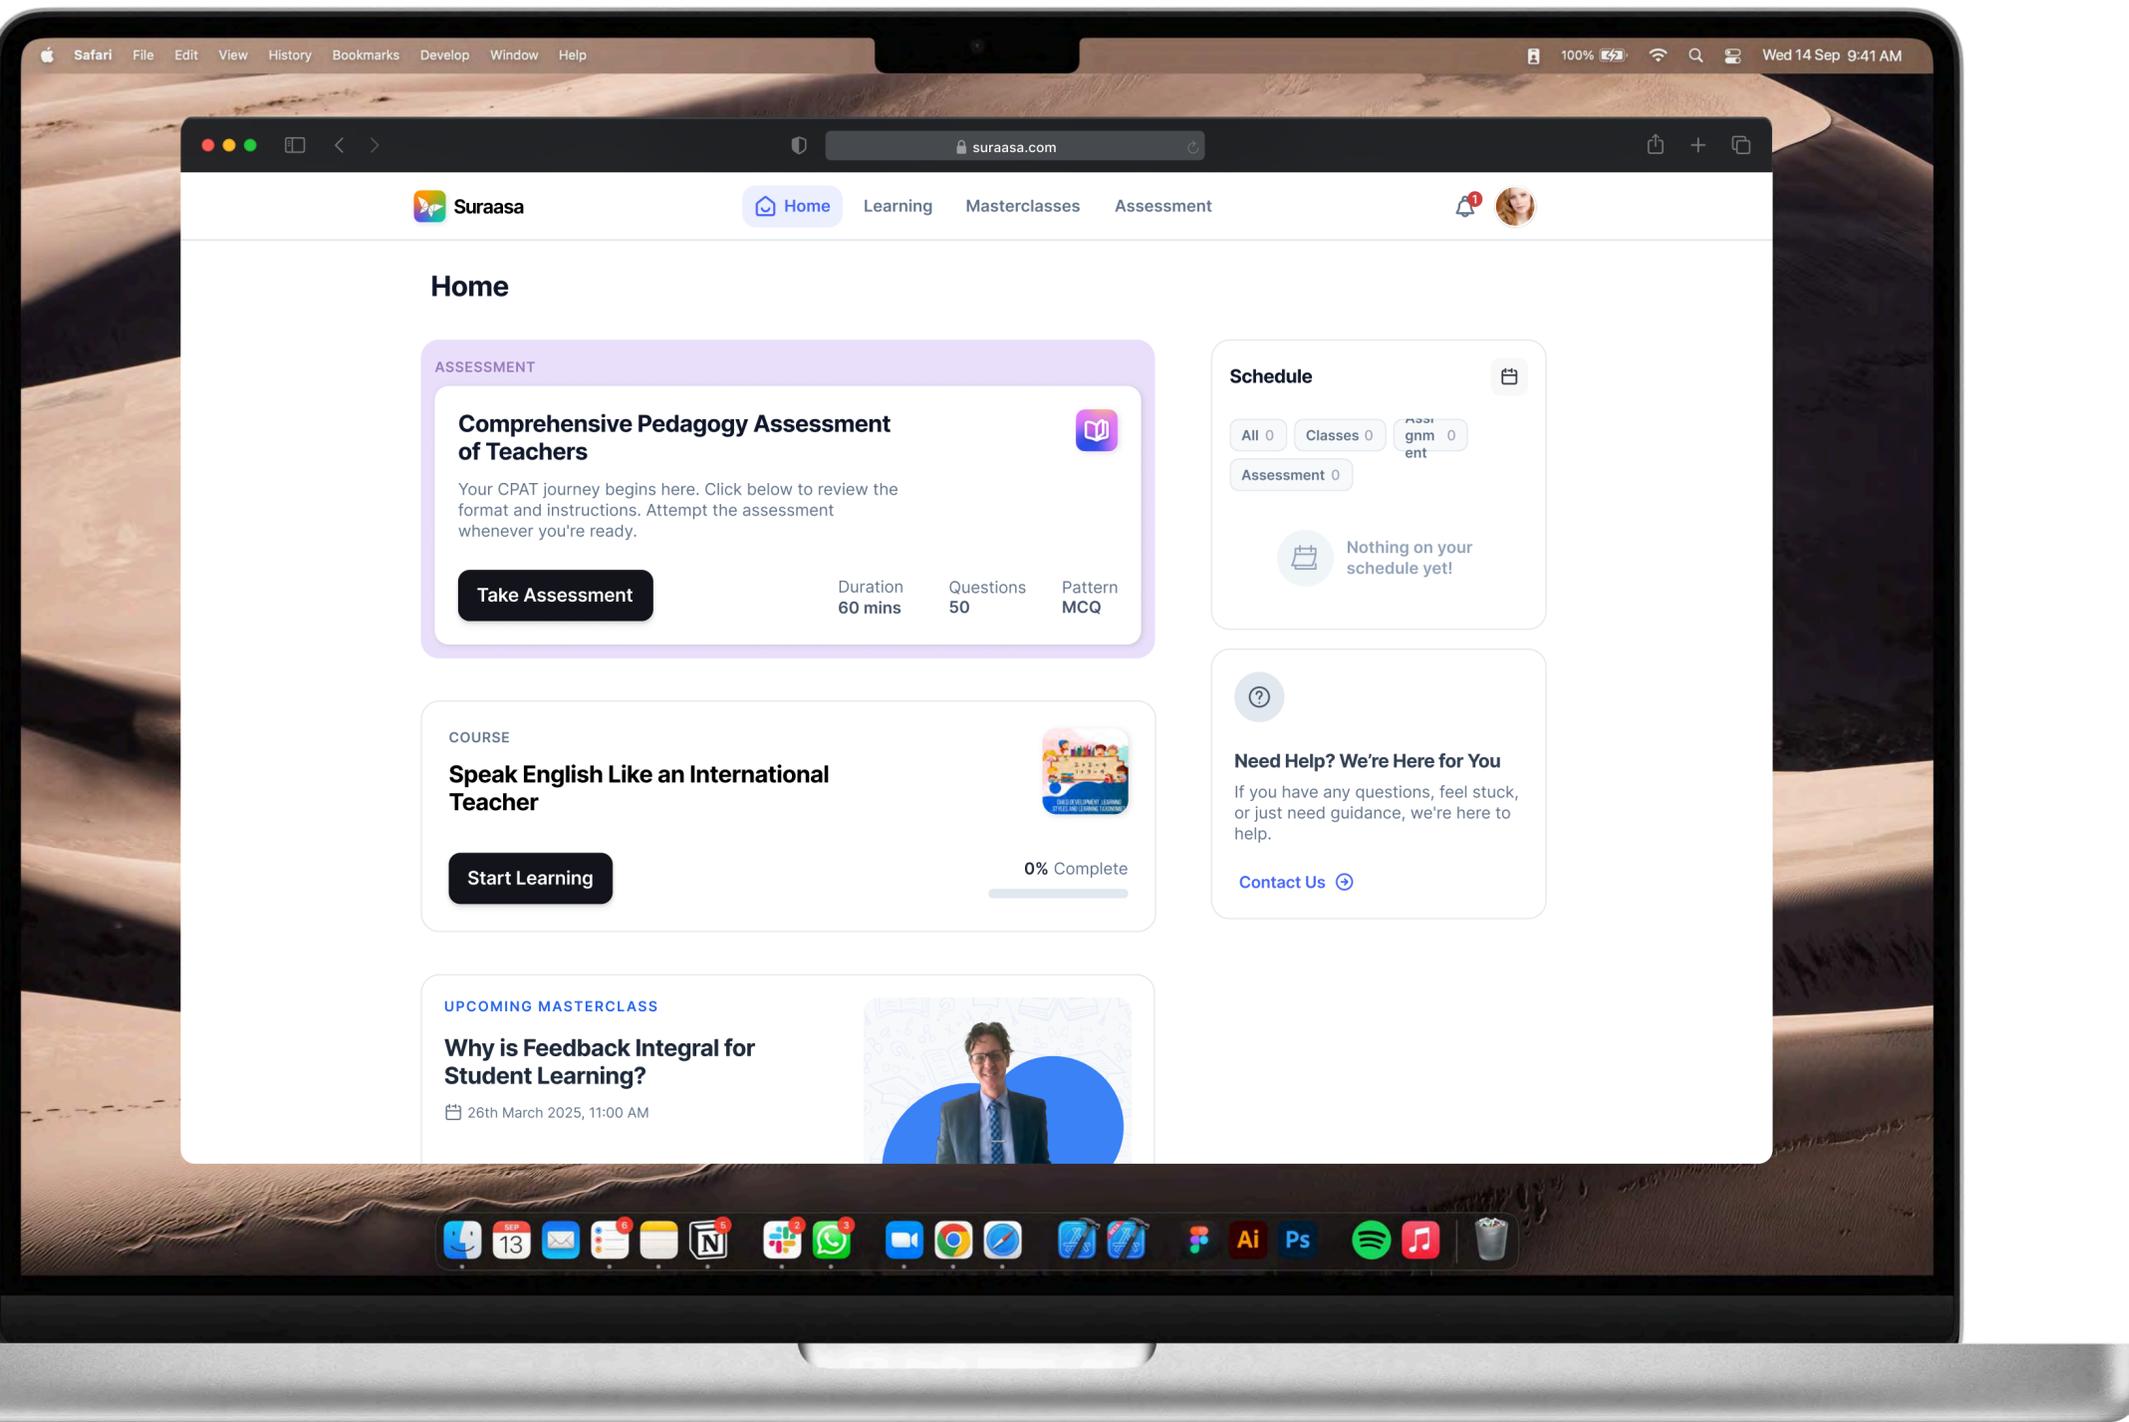

Teachers receive access to

- Learning content and progress tracking
- Live and recorded masterclasses
- Certificates for live masterclass attendance
- CPAT and individual teacher reports

Suraasa SURE

How You Can Use the Data

Retain
your top-performing talent

Nurture
high-potential teachers who need scaffolding

Re-evaluate
talent fit and alignment with your school's culture

Exclusive Offer for Your School

A Visible Mark of Excellence for Your School

Suraasa SURE

600,000+ Teachers   15,000+ Schools   50+ Countries   125 Million+ Minutes of Learning Delivered

For the Love of Teaching Certified

Recognition of your commitment to continuous teacher growth

A mark of trust & excellence for parents, teachers & the education community

Differentiates your school as a leader in teacher empowerment

Can be used on all digital & physical marketing collaterals

Choose Continuous Growth and Measurable Impact

Why Suraasa As Against One-Off Workshops

One-Off Workshops	Suraasa SURE
Generic, one-size-fits-all content; no way to measure if learning happened	**Data-driven & personalized** to your teachers' needs; measurable impact via pre and post-assessments
No support for school leaders to see impact	Observation tools & frameworks for you to track growth
Inconsistent trainer quality leads to limited engagement and board-level impact	Blends **self-paced, engaging learning** with synchronous classes by international faculty
Teachers feel unsupported and disengaged over time	Teachers stay motivated, supported, resulting in **improved retention**

Trusted by Top Schools Worldwide

What School Leaders Are Saying

"This has been an extremely well-crafted training module, which is hugely beneficial. It served as a pit stop and allowed me to reflect on how much deeper I can go with the nuances of competency-based assessments."

Mr Arijit Ghosh
Vice President
Seth MR Jaipuria Group of Schools

"This has really helped me understand the correct definition of competency-based evaluation and guided me on how to achieve it. The sessions on understanding and analyzing assessment data to help students and teachers were very helpful."

Ms Archana Pandey
Principal
The Vivekananda School
